

Panasonic Enhanced Communications Solutions

Your Global Leader in Communications Solutions

Network Communications Solutions >>>

The **Panasonic Converged IP-PBX System** is a total solution that gives you the power to manage change at your own pace.

- Easily configures from 8 to 1024 extensions
- Reduces support costs by leveraging your existing data network (uses VoIP on either LAN or WAN)
- Features easy-to-use and manage Centralized Voice Mail for multiple business locations
- Enhances the effectiveness of your mobile workforce through wireless connectivity

Network Cameras <<<

From stylish indoor models that record directly to an SD card — to rugged, splash-proof outdoor dome-mounts — Panasonic offers you the very best in fully-integrated, high-quality network cameras.

- Allows you to record and store video and audio to an SD card.
- Offers full-screen, cell phone and PDA remote monitoring from nearly anywhere in the world via the Internet
- Provides simultaneous MPEG-4 and JPEG images for enhanced picture quality
