## MX Logic® Disaster Recovery Services

Where your business email network is concerned, losing connectivity shouldn't leave you out of touch, out of options and out of luck. Whether your email server is down due to a natural disaster, a power outage or even regular maintenance, your business needs to keep this valuable communications lifeline up and running.

You're never disconnected with MX Logic Disaster Recovery Services, which offer email access, management and use, and protection against information loss whenever your email server is out of commission. The fully-managed suite of services provides the insurance you need to maintain "business as usual" communications.

### STRENGTHEN YOUR BUSINESS CONTINUITY PLAN

- **Protect business from loss of vital information**
- **Reduce employee downtime**
- **Enable continuous email communications during outages**
- **Remain compliant with regulatory and workplace requirements**
- **Keep email network free of threats via inbound and outbound filtering**

### EASY AND EFFECTIVE EMAIL ACCESS, USE, MANAGEMENT AND RETENTION

Organizations that rely on email to conduct day-to-day business are at risk whenever their email network is down. MX Logic Disaster Recovery eliminates these risks and helps to protect business reputation, operation and productivity.

- **Automatic service engagement when outage is detected**
- **Access to email received during outage via secure Web interface**
- **Full email functionality, including Read, Compose, Reply, Forward and Delete**
- **Up to 60 days of unlimited rolling storage**
- **Intelligent post-outage email activity synchronization**
- **Outage notifications and system updates**
- **Inbound and outbound message filtering by the MX Logic® Email Defense Service**

### CONVENIENT, AFFORDABLE DISASTER PROTECTION

MX Logic Disaster Recovery is a convenient managed service that is less costly and cumbersome than tape or disk backup solutions. It offers easy activation, administration and use, and is compatible with all common email systems.

# A SUITE OF DISASTER RECOVERY SERVICES

Whether you require full disaster recovery support, including Web-based email access during an outage, or a storage-only solution, MX Logic can meet your needs.

## MX LOGIC® MESSAGE CONTINUITY

Your business shouldn't fall silent because of an email network outage. MX Logic Message Continuity can help you to maintain two-way communications and keep an accurate record of all email activity during outages.

- Engages automatically for instantaneous protection
- Can be activated manually for planned maintenance periods
- Provides Web-based access and use of email during outage
- Synchronizes all message activity, including deleted messages, upon outage completion
- Includes 60 rolling days of unlimited storage to support business during prolonged email network disruptions.

## MX LOGIC® FAIL SAFE SERVICE

Businesses that require a storage-only business continuity solution can turn to the MX Logic Fail Safe Service. The service ensures a company will never lose an email by providing automatic email backup in the event your business is struck by an unforeseeable outage or malfunction, or during planned maintenance.

- Provides automated, worry-free email delivery protection
- Minimizes productivity loss in the event of a disaster
- Allows IT professionals to concentrate on key initiatives
- Engages automatically for instantaneous protection
- Includes five rolling days of unlimited storage

- Convenient month-to-month contract terms
- Risk-free, 30-day money-back guarantee
- No hardware or software to integrate
- Rapid service activation
- Easy administration through the MX Control Console<sup>SM</sup>, a Web-based administrative portal
- Flexibility and scalability that allows the service to grow with your business needs
- Convenient training classes provided by MX Logic® Education Services
- 24x7 customer support services

## THE RIGHT PACKAGE FOR YOUR BUSINESS

You can easily and effectively protect your business from a wide range of email threats and reduce business disruption with MX Ultimate Access<sup>SM</sup>, which includes all of the features and functionality of the MX Logic Email Defense Service and MX Logic® Message Continuity.

### Ultimate Access

- Advanced Spam Blocking
- Virus and Worm Scanning
- Content and Attachment Filtering
- Fraud Protection
- Email Attack Protection
- Outbound Message Filtering
- Sophisticated Quarantine Management
- Around-the-clock Monitoring and Protection
- MX Logic Message Continuity

MX Logic Message Continuity and MX Logic Fail Safe are also available as optional add-on services with MX Enterprise Defense<sup>SM</sup>. The selection of MX Logic Message Continuity with MX Enterprise Defense also requires the purchase of Outbound Message Filtering and either Double or Triple Virus Filtering. MX Logic Fail Safe is also included in MX Ultimate Defense<sup>SM</sup>.
