

MX Logic® Service Bundles

Complete Security Coverage

Email threats, botnets, spyware and viruses. It seems wherever you turn there is a new hazard trying to infiltrate your network. In today's instant environment, the Internet is critical to the communication success of any company, and protecting yourself shouldn't hinder your ability to move forward. To make protecting all aspects of your email and web connectivity easier and more productive than ever, MX Logic has created three unique managed service bundles to address the particular needs of your organization.

COMPLETE SECURITY

Email, Web & Archiving

EMAIL SECURITY & ARCHIVING

Email & Archiving

EMAIL & WEB SECURITY

Email & Web

KEY BENEFITS

- Single vendor for multiple online security services
- Comprehensive protection against blended online threats
- Unified management experience
- 24x7 live customer support
- Best value for the dollar

SUPERIOR MANAGED SECURITY SERVICES

MX Logic managed security services are built to protect your organization from the wide range of threats inherent in conducting business online. Supported by industry-leading technology and an experienced team of threat experts, our services offer enterprise-class performance and functionality, plus easy administration and use. MX Logic services work outside the network perimeter and require no hardware or software integration. With our bundles, you can combine the following services to meet the unique needs of your organization:

- **Email Security** – Protects your organization from spam, viruses and worms, email attacks and fraud, while enabling ongoing communications during server outages.
- **Web Security** – Works outside the network perimeter to ward off spyware and viruses, while enabling you greater control over non-business-related Internet use.
- **Message Archiving** – Provides the industry's safest and most reliable email archiving and retrieval capabilities, and integrates seamlessly with our comprehensive and easy-to-use Web-based administrative console.

CHOOSE FROM THREE COMPETITIVELY-PRICED BUNDLES

Complete Security

Our most comprehensive coverage bundle. Protect your company with award-winning managed services that combine **email, web** and **message archiving** together. The following feature list describes the contents of the Complete Security service bundle:
